

Design Technology Curriculum Statements

	Y7	Y8	Y9
Overarching Comment	<ul style="list-style-type: none"> Can use tools and equipment from all Design Technology material areas skilfully, safely and with confidence. 	<ul style="list-style-type: none"> Understands that materials have different characteristics and can describe the techniques required to process them. 	<ul style="list-style-type: none"> Students can develop their design ideas iteratively and that this can lead to a more refined and commercially viable products.
Food Preparation & Nutrition Curriculum Comments	<p style="text-align: center;">‘Understanding Food’</p> <ul style="list-style-type: none"> Has an understanding of how to prepare food safely and hygienically. Can describe what a healthy diet looks like. Understands the term ‘seasonality’ and how this affects preparing menus. 	<p style="text-align: center;">‘The choices that we make’</p> <ul style="list-style-type: none"> Demonstrates an understanding of how meat, fish and alternatives can be prepared without cross contamination. Can understand why people choose a meat free diet and how this impacts on their food choices. Can describe how meat and poultry meets welfare standards. 	<p style="text-align: center;">‘Street Food’</p>
Graphic Products Curriculum Comments	<p style="text-align: center;">Cereal Box</p> <ul style="list-style-type: none"> Can follow teacher led demonstrations to use a range of Computer Aided Design (CAD) and practical skills to make a successful Graphics product? Can analyse existing products and take inspiration forward into their own design work. Can draw an accurate, to scale orthographic projection of a 3D object. 	<p style="text-align: center;">Architectural Modelling</p> <ul style="list-style-type: none"> Can independently use a range of Graphics Computer Aided Design (CAD) skills to produce a 2D development net ready for Computer Aided Manufacture (CAM) processes. Can produce a 3D rendered virtual architectural modal. Can follow teacher led demonstrations and select the correct tools to accurately mark out, cut and assemble a Graphics product. 	<p style="text-align: center;">Music Festival</p> <ul style="list-style-type: none"> Can follow teacher led demonstrations and video tutorials to use a range of navigation, drawing, typography and tracing tools on industry standard Computer Aided Design (CAD) software. Can create an original and creative corporate identity for a given design brief and ensure it follows principles of layout design. Can independently and safely use a range of Graphics tools and materials to produce a commercially viable and functional Graphics product.
Product Design Curriculum Comments	<p style="text-align: center;">Sweet Machine (Commercial Design)</p> <ul style="list-style-type: none"> Can follow teacher led demonstrations to accurately mark out, drill and glue together a pre manufactured kit of parts. Understands that products need to be both functional and aesthetically pleasing in order to be commercially 	<p style="text-align: center;">Pewter Casting (One-off Production)</p> <ul style="list-style-type: none"> Can combine practical making skills and modern digital design and manufacturing. Can use CAD software to convert bitmap files into vector files and can prepare an image ready for manufacturing with CAM. 	<p style="text-align: center;">Test Tube Holder (Iterative Design)</p> <ul style="list-style-type: none"> Understands the need to identify a primary user and how to consider their needs and wants. Should demonstrate an ability to produce non fixated models to explore the suitability of designs which are refined continually before arriving at a final design solution.
