

Remote Learning Approach at SFA

1. Remain open fully with some students absent due to Coronavirus

- If a student is missing from your class please just upload the Workbook to Firefly and reference the page numbers also.
- If a student has the workbook at home then page numbers of that document will suffice.
- There is no requirement to video or record.
- Label the work as 'Classwork' on Firefly and set it daily as a 'Task' after the lesson has taken place
- Well being calls to VP students and safe and well to all

2. We are forced to lockdown a year group bubble/s

- Same as previous slide, plus
- Teachers are asked to record a video explaining the knowledge required for students to complete all lesson phases in the lesson time that you would have been teaching. For example, if year 8 have to isolate, the teachers of year 8 for P1, use P1 to record the Knowledge phase.
- Please convert the file and save in Microsoft Streams and upload the video link to Firefly with the 'Classwork' as per previous slide

Regularity:

- Students are set work as per their timetable daily
- Students are assessed every 2 weeks (testing phases)
- Students submit work for marking via Firefly
- Feedback is given via WCOS, recorded as a video by the teacher
- Regular wellbeing calls and check-ins with HAL

3. There is a National Lockdown which includes schools

- Same as previous 2 slides but we will be working from home remotely ourselves.
- Teachers will be setting work on Firefly and uploading a pre-recorded video of the knowledge for each lesson

Regularity:

- Same as previous slide plus
- Bi-weekly Firefly quiz
- Two live Form meetings

Homework on Firefly:

Please clearly label homework as 'Homework' in the task title to differentiate between classwork and homework.
