Course Testaments

“Criminology intrigued me and we can only study it in Sixth Form. My favourite area of the course is applying my knowledge to real life case studies and independently research their cases. I also liked how the course was structured with the NEA and exam elements. It helped to balance my workload along with my other two subjects. I am currently applying to continue studying Criminology at university. I would totally recommend this course as it opens up so many career choices.

“I really enjoyed Criminology at A-level, especially when we focused on the different theories and how they would influence people to become criminals.
